**Resolution
of the Council of the Faculty of Oriental Studies,
University of Warsaw issued on May 28, 2013**

The Council of the Faculty of Oriental Studies, University of Warsaw at its meeting on the 28th of May passed the following resolution:

Recently reports are proliferating about attacks on foreigners, especially those hailing from beyond the European cultural range. Attempts to burn their flats are the morbid aspect of these attacks. It appears that false tribal solidarity coupled with ignorance hails well in our country even when no alien power is depriving us of our sovereignty. In our capacity as representatives of the community of scholars who are involved in the study of non-European civilisations, and who on many occasions, while living for many years among nations of Asia and Africa experienced great kindness on their part, wish to condemn with utmost firmness these criminal acts. We wish to offer our thanks to Mr. Bartłomiej Sienkiewicz, the Minister of Home Affairs for his gesture of solidarity with persons who became the objects of these attacks and express our anxiety at the silence of moral authorities. We appeal to all those who share our thoughts to join this appeal.
